EXPERIENCE

FRONT-END DEVELOPER @ Carroll Bradford
2019-Present | Orlando, FL

-Developed and maintained code for in-house projects primarily using HTML, CSS, SCSS, JavaScript, jQuery, and Vue.js
-Communicate and collaborate with the product manager/designers on a weekly basis to ensure quality results for the progress of our projects and app
-Making meaningful contributions to the long-term maintainability and health of the product.
-Custom SCSS styling written with BEM naming conventions.
-Automated testing using Selenium to improve stability, efficiency and performance across the app
-Helped solidify a brand direction throughout our transition towards a new, fresh UI/UX
-Work with design tools such as Adobe Photoshop, InDesign, and XD to create beautiful prototypes and brand guidelines.

FRONT-END DEVELOPER @ Freelance
2016 - Present | Miami, FL

-Development/deployment of sites with a focus on responsiveness, accessibility, & maintainable code
-Testing code in multiple browsers to ensure cross-browser compatibility
-Constantly maintaining communication with clients
-Created custom, flexible, extensible, and semantic React components for applications
-Implemented new UI & templating system with Bootstrap to improve UX
-Develop UI/UX Prototypes using Adobe XD for future frontend projects/mobile

PROJECTS

-APPLE NEWS.JS | Demo in Portfolio | Repo: https://github.com/britok30/applenews
- Web app using React and the News API to create my version of Apple News. Features news from different categories. It is updated daily and users can search up any news on any given topic.

PLAYSPACE | https://playspace.netlify.com | Repo: https://github.com/britok30/Play-Space
-Web app using React and RAWG API featuring all the latest video games. Clients can search games and find out more info via the RAWG website.
